

## Handling of University Activities in the Post-COVID-19 Era

Listed below are TUAT policies to respond to various TUAT activities from November (applicable to activities to January 16, 2022 (tentative)). These policies are prepared: 1. to reflect the fact that the number of new cases of COVID-19 in Japan has been declining, etc. after the "State of Emergency in Response to COVID-19" was lifted; 2. to enhance opportunities for interaction and communication (insufficient during the COVID-19 pandemic) among student themselves and among students and faculty/administrative staff members; 3. to keep a close watch on the next COVID-19 peak (6th wave); and 4. to refer to the national/local governments' policies in relation to COVID-19. We ask you to take thorough infection prevention measures (wearing non-woven masks, cleaning your hands and keeping social distancing, etc.) and take appropriate action.

	Activities on campus (Inbound)	Activities off campus (Outbound)
<p><b>People belonging to TUAT (TUAT students and faculty/administrative staff)</b></p>	<p><b>&lt;Lectures&gt;</b> - As a general rule, can be conducted face to face after taking thorough infection prevention measures (80% or more of all lectures)</p> <p><b>&lt;Research activities&gt;</b> - Can be conducted after taking thorough infection prevention measures</p> <p><b>&lt; Extra-curricular activities &gt;</b> - Can be conducted after submitting a "<a href="#">Request for Extracurricular Activities</a>" AND receiving approval on conducting the activity by the end of the fiscal year (March 2022) - Rules for using sports facilities are based on "<a href="#">運動施設の使用制限レベルの引き下げについて</a>" (Lowering the Usage Restriction Level of the Sports Facilities; approved by TUAT COVID-19 Response Headquarter on October 4, 2021). Face-to-face activities can be carried out if social distancing (according to the size of the space used) is maintained. Currently, operated under "Restriction Level 1" *</p> <p><b>&lt; On-campus events &gt;</b> - Can be conducted face to face after infection prevention measures are taken (such as limiting the number of participants and/or requiring pre-registration; according to the size of the space and/or contents of the event) - Consider conducting online or hybrid events for large-scale events (when using a venue with a capacity of 100 people or more)</p> <p><b>&lt; Meetings &gt;</b> - We recommend that meetings are conducted online, continuously, while you can adopt face-to-face meetings as required</p> <p><b>&lt; Social gatherings, etc. &gt;</b> - Refrain from having them on campus for the time being</p> <p><b>&lt; Faculty/administrative staff's remote work &gt;</b> - Continuously, we recommend (from the perspective of work style reform as well) that remote work is proactively endorsed and continued</p>	<p><b>&lt; Lectures &gt;</b> - When taking lectures at another university, etc., follow the policies of the host institution (however, you can participate in face-to-face lectures only if you have consulted your TUAT supervisor, etc., and your participation is approved by him/her)</p> <p><b>&lt; Research activities &gt;</b> - Can be conducted after taking thorough infection prevention measures (based on the COVID-19 prevention measures of the external research institution; for students, as the case in &lt;Lectures&gt;, you can participate in them only if you have consulted your TUAT supervisor, etc., and your participation is approved by him/her)</p> <p><b>&lt; Extra-curricular activities &gt;</b> - Can be conducted after submitting a "<a href="#">Request for Extracurricular Activities</a>" (explaining thorough infection prevention measures are taken) each time you participate AND receiving approval on conducting the activity. Follow the operation rules of the facility used.</p> <p><b>&lt; Off-campus events &gt;</b> - Participate after taking thorough infection prevention measures</p> <p><b>&lt; Meetings &gt;</b> - We recommend that meetings are conducted online, continuously</p> <p><b>&lt; Social gatherings, etc. &gt;</b> - When participating as part of duties related to TUAT or student education/research activities, follow the policies, etc. of the national/local governments and host organization (however, for students, you can participate in them only if you have consulted your TUAT supervisor, etc., and your participation is approved by him/her) - When participating for personal reasons, make an appropriate decision based on the <a href="#">policies of the national/local governments</a></p> <p><b>&lt; Domestic/overseas business trips &gt;</b> - Can be carried out after fully considering the situation of the destination AND receiving direction from the travel-ordering authority - A student's study abroad can be approved if all the following conditions are met: the dispatch period is 3 months or longer; s/he is fully vaccinated against COVID-19 (receiving the two-dose course of a vaccine as a general rule; however, consideration will be given to his/her individual situation); the study abroad destination is one of TUAT's partner institutions - A faculty/administrative staff member's overseas business trip can be approved if all the following conditions are met: the dispatch period is 4 months or longer; s/he is fully vaccinated against COVID-19 (receiving the two-dose course of a vaccine as a general rule; however, consideration will be given to his/her individual situation) - For both <a href="#">students and faculty/administrative staff</a>, follow the TUAT guidelines</p>
<p><b>People affiliated with/yet not belonging to TUAT (external project affiliated, non-TUAT students and staff, etc.)</b></p>	<p><b>&lt; Symposiums, university festivals, etc. &gt;</b> - Can be conducted face to face after taking infection prevention measures (such as limiting the number of participants AND requiring pre-registration; according to the size of the space used) - We recommend that large-scale events are conducted online (when using a venue with a capacity of 100 people or more) - Events such as university festivals or open-campus events can be conducted offline with participants after taking thorough infection prevention measures - TUAT Nature and Science Museum (Koganei Campus) and Yume Ichiba (Dream's Market, Fuchu Campus) will re-open after taking infection prevention measures (such as limiting the number of participants and/or requiring pre-registration) step by step</p> <p><b>&lt; Extra-curricular activities &gt;</b> - Face-to-face activities can be carried out if social distancing (according to the size of the space used) is maintained based on "<a href="#">運動施設の使用制限レベルの引き下げについて</a>" (Lowering the Usage Restriction Level of the Sports Facilities; approved by TUAT COVID-19 Response Headquarter on October 4, 2021) - Keep a <a href="#">participation file</a> to record physical conditions of the participants such as their temperatures on the participating day - Sports facilities are operated under "Restriction Level 1" currently</p> <p><b>&lt; Filming location for dramas, movies, etc. &gt;</b> - On condition that there are no restrictions on conducting extra-curricular activities - Whether or not to accept the request will be determined after confirming that infection prevention measures have been taken and coordinating with related department(s)</p>	

\* "Restriction Level 1" for using sports facilities: maximum number groups who can use the space at the same time: 2; maximum number of users: 30 at the gymnasium, 20 at the martial arts hall, 6 to 8 at the training room, 50 at the ground; maximum length of time for usage: 2 hours
